UAS Privacy Best Practices

[Back](#)

Guidelines for Neighborly Drone Use:

- If you can, tell other people you'll be taking pictures or video of them before you do so.
- If you think someone has a reasonable expectation of privacy, don't violate that privacy by taking pictures, video, or otherwise gathering sensitive data, unless you've got a very good reason.
- Don't fly over other people's private property without permission if you can easily avoid doing so.
- Don't gather personal data for no reason, and don't keep it for longer than you think you have to.
- If you keep sensitive data about other people, secure it against loss or theft.
- If someone asks you to delete personal data about him or her that you've gathered, do so, unless you've got a good reason not to.
- If anyone raises privacy, security, or safety concerns with you, try and listen to what they have to say, as long as they're polite and reasonable about it.
- Don't harass people with your drone.

FAR PART 107

FAR 107 are Federal Aviation Regulations for the operation of Unmanned Aircraft Systems and Certification of Remote Pilots. We will review first the ACS for this lesson then the following FAR 107 chapters.

CHAPTER 5. PART 107 SUBPART B, OPERATING LIMITATIONS FOR SMALL UNMANNED AIRCRAFT SYSTEMS (sUAS)

CHAPTER 6. PART 107 SUBPART C, REMOTE PILOT CERTIFICATION

CHAPTER 7. sUAS MAINTENANCE AND INSPECTION

We shall now review the full text contents of Part 107.
